Priya Raman

Senior Backend Engineer | Austin, TX
priya.raman@example.com | (512) 555-0143 | github.com/priyaraman

SUMMARY

Backend engineer with 6 years of experience designing and scaling Python services. Specialize in Django and FastAPI APIs, PostgreSQL performance tuning, and AWS infrastructure. Comfortable owning services end to end, from design docs to on-call.

EXPERIENCE

Senior Backend Engineer
Lumen Health (Series C, 400 employees) | *Mar 2023 - Present*
- Led the redesign of the claims-processing API in FastAPI, cutting p95 latency from 820ms to 140ms.
- Migrated 3 Django monoliths to containerized services on AWS ECS; reduced hosting cost by 31%.
- Introduced pytest + contract testing in CI, raising coverage from 48% to 87%.
- Mentor 4 engineers; run the backend guild's design review.

Backend Engineer
Parcelly (logistics SaaS) | *Jun 2020 - Feb 2023*
- Built the shipment-tracking service (Django REST Framework, Celery, Redis) handling 2M events/day.
- Tuned PostgreSQL indexes and queries, cutting the nightly reporting job from 4h to 25min.
- Designed an idempotent webhook system used by 1,200+ customer integrations.

Software Engineering Intern
Bluebonnet Bank | *May 2019 - Aug 2019*
- Wrote Python ETL scripts that automated a manual reconciliation process.

SKILLS

Languages: Python, SQL, Go (working knowledge), Bash
Frameworks: FastAPI, Django, DRF, Celery, SQLAlchemy, pytest
Data & Infra: PostgreSQL, Redis, Kafka, Docker, AWS (ECS, RDS, SQS, Lambda), Terraform, GitHub Actions

EDUCATION

B.S. Computer Science, University of Texas at Austin, 2020
